## Who Can Beat this Colt?

J. Thos. Dudderar, who lives on the Somerset pike about five miles from town, is the owner of a draft colt which for rapid growth and size eclipses anything in the equine line we have heard of. At foaling time the colt was very large and when it was two days old her owner put her on the scales and found that she weighed 185 pounds. At 25 days she weighed 270 pounds, and when she was 84 days old weighed 495 pounds. The filly is now 5 months old, is 13 hands (3 1/2 inches high and pulls the scale at 595 pounds. Last July Mr. Dudderar showed her at the Stanford fair in the ring for draft mares any age. The youngest mare in the ring was 3 years old, but notwithstanding this handicap the Dudderar colt carried off second honors, defeating a field of good ones. This young giantess is by M. S. Baughman's George Herr and out of a good sized draft mare. Her owner believes she will eventually be the largest mare in this section of the state.

## Lincoln Sends a Tree

Judge James P. Bailey shipped to Frankfort yesterday a healthy sarsaparilla tree, which is Lincoln county's contribution to Arbor Day at the State Capital. It was planted Wednesday on the capitol grounds along with a tree from every county in the state. Gov. McCreary delivered an address on the occasion, urging all citizens to observe and to keep in mind the importance of Arbor Day and thereby help preserve the magnificent forests of Kentucky for which she has been so famous, and which are now becoming almost extinct.

The site on which Mr. Eads will build his home is a model one and when completed it will be a very attractive place.

## Logsdon—Hankla.

"I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at all druggists.

President-elect Wilson has not "breathed to a soul" whether he will call a special session of Congress to revise the tariff. The Governor declared that he had not expressed an opinion on this topic to anyone, nor allowed himself to form one. He is hearing all sides of the case, he said. "I trained myself during my term as Governor," he said, "not to anticipate my opinions; my friends, of course, have a right to express their own opinions."

George Miller, of Barbourville, brakeman injured in the explosion of a Louisville and Nashville engine in a tunnel near Emanuel, died and E. Ridner, fireman, is not expected to recover. George Jennings, the engineer, will recover. Ridner and Jennings the others injured, were taken to a hospital at Corbin. He is survived by his wife who was Miss Mattie Eubanks of this county. A daughter their only child, died a few years ago just as she was entering young womanhood and the blow nearly crushed him. He had been in feeble health for some time and the end was not unexpected. He was a very extensive and successful cattle trader and farmer and leaves a handsome estate. His wife is a sister of J. C. Eubanks, of this county and M. B. Eubanks, of Boyle, and with her mother, Mrs. Sara Eubanks was at his bedside when the end came. M. B. Eubanks arrived at the Miller home a short time before the death of his brother-in-law. ## Marksbury.

The family of Mr. Milton Deane were greatly shocked late Friday afternoon where they found the body of his daughter in law, Mrs. Millard Dean lying cold in death. They were about ready to partake of the evening meal when Miss Milton Deane made inquiry: "Where is Bertha?" some one answered "I suppose she is with Millard." But when Mr. Millard Dean came into the dining room, the same inquiry was made, "Where is Bertha Millard?" He jokingly replied "She's run off I guess." Then it was that Mrs. Milton Deane became uneasy. On going to her room she found her lifeless body in front of the heater where they supposed she was kindling a fire. Her sudden death cannot be accounted for as she was in perfect health. Mrs. Deane was about 30 years of age. She was married to Mr. Dean in Kansas several years ago. They came to Kentucky three years ago making their home with his father, Mr. Milton Deane, since that time. Her body was carried to Kansas for burial accompanied by her husband and two children.

Coleman left Wednesday morning for Charlottesville, Va. in response to a message from the authorities of the University of Virginia saying that her son, Harris Coleman, was ill with typhoid fever. Young Coleman entered college there in September and at once took high rank not only in his studies but upon the athletic field, being one of the star foot ball men. His many friends here hope that his case is not a serious one.

## House Burned to Ground

The home of Cook Alford, at Pleasant Point, near King's Mountain, was burned to the ground Tuesday afternoon together with its contents. The loss falls heavy on Mr. Cook as he had no insurance on his property. It is not certain how the blaze originated, but it is thought that some children were playing with matches and when the fire started they became frightened and the alarm too late to save the building. Neither Mr. Cook nor his wife were at home at the time.

See J. D. Wearen, the Insurance Man, of Stanford, and you'll always be protected. 92-1.

## Home Mission Week Here

## Middleburg.

Now that the republican party is no more and Bull Boose dehorned it would seem that the democrats would have smooth sailing.

We intended saying something about the election in this letter but it is too long past. By the way Casey would be a mighty good place to set up a barber shop. An expert could do a good profitable business here shaving long faced republicans if allowed to charge according to space covered.

Turkey Tom Gooch, of McKinney has engaged the services of C. C. Compton and C. T. Luster to assist him in the turkey business in this county, and they are scanning the country in search of that toothsome bird. Mr. Gooch showed good judgment in the selection of representatives here as they are good men well on to their job. However they are somewhat different in habits, Mr. Compton talks without ceasing but they are powerful clever men, and will give a square deal every time.

The meeting of the Baptist church which had been in progress for 15 days closed Sunday night. Rev. J. L. Dotson left Monday morning for his home at Hopkinsville. There were 12 additions to the church and the ordinance of baptism was administered here Sunday afternoon in the presence of quite a large crowd of people. The meeting is conceded by all to have been the best held here for many years. Members of other churches came in and lent a helping hand in the effort to save souls, for which the Baptist people were truly grateful. Bro. Dotson is an able and fearless expounder of the gospel of Christ and endeared himself to the people here by his earnest effort in behalf of the Master's cause. The church had had quite an uplift and pastor C. T. Claunch is rejoicing to see the spirituality of his people looking up. A business meeting of the church was held Saturday when Bro. Claunch was called to the pastorate for the year 1913, and his work will go on undisturbed.

## JUDGE HARDIN DOING FINE WORK ON BENCH

Cases are Being Disposed of Rapidly in Circuit Court—This Week's Work.

Judge Charles A. Hardin has been pushing business along at a most satisfactory rate in Circuit Court during the present term, and is winning compliments on all sides for the energy and ability he is showing on the bench.

The second week of the Lincoln circuit court has not been a very busy one so far. Nothing was done Monday, while Tuesday forenoon was taken up with the case of Isaac Brackett's administrator against the Modern Brotherhood of America of America, a fraternal organization, having an insurance benefit. Brackett carried a policy of \$1,000 in the order and upon his death which occurred in July, 1911, his widow sought payment on it. The organization resisted payment on the ground that Brackett was employed in a distillery, and showed that its by-laws positively forbid any one engaged in the sale or manufacture of liquors of any kind, or any agent or employee of a distillery or liquor house, from participating in its benefits. Brackett was employed at the time of his death in the capacity of bottler at Traylor's distillery and Judge Hardin gave peremptory instructions for the defendant.

The suit of O. G. Speaks, of Highland, against the city of Stanford, which was holding the courts attention at last report, was finished Wednesday, and resulted in Speaks recovering damages in the sum of \$350. While crossing the bridge over St. Asaph creek about eighteen months ago the traction engine driven by Speaks went through and the city was made the defendant in a suit for \$500, which the plaintiff claimed as the amount of damages. City Attorney Paxton and K. S. Alcorn looked after the city's interest and P. M. McRoberts represented Mr. Speaks.

The suit of James McCormack against C. J. Sipple, of London on a note of \$450 occupied the attention of the court for two days. The case was finally disposed of Thursday afternoon when a jury awarded McCormack \$50. McCormack held Sipple's note for \$450 for a consignment of hay, shipped to Middleboro, and which Sipple claimed was damaged. Attorney J. B. Paxton represented McCormack and Hon. P. M. McRoberts was attorney for Sipple.

The Globe Fertilizer Co., of Louisville, won the suit brought against it by J. L. Baugh, of Highland, who alleged his land had been damaged by use of its fertilizer. Baugh won the suit in the county court but it was taken up and the jury declared he must pay the note of \$16.80 and the interest on it from Oct. 1910 to date.

## JOSEPH WALLACE HAYDEN

Dies at Paris After Short Illness—Parents Formerly Lived Here.

Joseph Wallace Hayden, Jr., the 11 year old son of Mr. and Mrs. J. W. Hayden, died at the home of his parents in Paris on Tuesday morning last after an illness of about 24 hours, of heart trouble. The little fellow was taken ill with what was thought to be acute indigestion late Sunday evening, but no serious symptoms developed until some time during Monday. Physicians were summoned and every effort made to save him, but he grew steadily worse and the end came at 7:30 Tuesday.

He was the youngest child of Mr. and Mrs. Hayden who for many years were residents of Stanford, and while the deceased was born in Winchester, whither his parents had moved, he came here frequently with his mother to visit her relatives and had many friends among the children of his age. He was a bright, lovable child, a regular and interested attendant at his Sunday school in Paris and gave promise of a long and useful life. His parents, sisters and brothers are crushed with their sorrow and the unfeigned sympathy of a wide circle of friends in their old home here and elsewhere goes out to them in their dark hour of grief. The remains were brought to the home of his grandmother, Mrs. Permelia Brown, on Wednesday night, and on Thursday morning at 10:30 all that was mortal of the bright and beloved son and brother was tenderly laid away in Buffalo cemetery after a short service at the grave by Rev. D. M. Walker.

## Men's Shoes

The best is always the cheapest tho some times when buying they look high. The best sometimes disappoints us, but the cheap ones will fool you most every time. If you feel you must skimp a little, take it out of your clothes or underwear, but never out of your shoes. Buy the very best every time for your feet. We decided two years ago to buy every time the very best things possible for the feet. We are today showing, both in leather and rubber goods, the best quality of shoes made in the world. We mean this—every word of it, and we declare to you that a man's fine shoe to retail at \$3.50, \$4, \$5 and \$6, are the **Walkovers** and **Nettletons**. If there is a work shoe from \$3.50 to \$7 that will wear longer, stay softer and nearer dry than **Menzies**, we don't know it. These **Menzies** people call their boys' shoes, "American Boy" they are the same high class wear resisters as the men's. They cost you \$2, \$2.50, \$3 and \$3.50 in boys; we have all these new. You will have to have them when it rains.

From reports which are coming to the Interior Journal Lincoln county democrats are practically solid for the nomination of Beckham for senator next year. Prominent men of the party who were never for him before are strong for him this time. Every democrat who loves fair play is bound to admit that the party owes him this nomination, and that it is up to the democracy to make amends for the treachery in the legislature which elected Bradley. The I. J. wants to know how every democrat in the county stands on this matter. No democrat who believes in a square deal and fair play to the party's nominees can afford to take any other position than that the party must retrieve the dishonor cast upon it when its nominee was beaten by traitors in its ranks. It won't do to trust any democrat with office or honor who holds any other position.

The shattering of the Turkish empire by the Balkan Alliance marks an important epoch in the world-wide conflict between Christianity and Infidelity. The whole of Europe may now be said to be under Christian sovereignty. The hope of the missionaries "the World for Christ" is being fulfilled by force of arms just now as well as by moral suasion.

### Eubanks.

Mrs. E. S. Hays has returned to her home here from an extended visit to her parents in Louisville.

Dr. T. J. Acton was in Louisville from Monday until Thursday of last week attending the meeting of the State Medical Society.

Dwight McDonald is rapidly recovering from a lingering illness of typhoid fever.

Harlan Newell is able to sit up in his room all day after being confined to his bed for three months.

Gov. Wilson and Judge Smith carried Eubank voting precinct by a large majority, as predicted several weeks before the election.

Col. Finecum, who resided near Buncombe, aged 70 years, departed this life November 4, of Bright's disease. He served as Colonel in the Union Army during the Civil War. He was one of the most highly respected citizens of the county and was wealthy. The friends and relatives here have the sympathy of the entire community in their sad bereavement.

### Only a Fire Hero.

But the crowd cheered, as, with burned hands, he held up a small round box, "Fellows!" he shouted, this Bucklen's Arnica Salve I hold, has everything beat for burns. Right also for boils, ulcers, sores, pimples, eczema, cuts, sprains, bruises. Surest pile cure. It subdues inflammation kills pain. Only 25c at all druggists.

It is so much easier to tell others how to do a thing than it is to do it yourself.

## Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, manna and stone root, golden seal, Oregon grape root and cherry bark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—

J. G. KENT, Esq.

puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."

"More than a week ago I was suffering with an awful cold in my head, throat, breast, and body," writes Mr. JAMES G. KENT, of 719 La. Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your 'Golden Medical Discovery.' I tried a bottle and it did me so much good that I feel safe in saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

## A Permanent Cure For Chronic Constipation

Although those may dispute it who have not tried it, yet thousands of others, who speak from personal experience, assert that there is a permanent cure for chronic constipation. Some testify they were cured for as little as fifty cents, years ago, and that the trouble never came back on them, while others admit they took several bottles before a steady cure was brought about.

The remedy referred to is Dr. Caldwell's Syrup Pepsin. It has been on the market for over a quarter of a century and has been popularized on its merits, by one person telling another. The fact that its strongest supporters are women and elderly people—the ones most persistently constipated—makes it certain that the claims regarding it as a permanent cure for constipation have not been exaggerated.

It is not violent like cathartic pills, salts or waters, but operates gently,

without griping and without shock to the system. It contains tonic properties that strengthen the stomach and bowel muscles so that in time medicines of all kinds can be dispensed with and nature is again solely relied on. Among the legions who testify to these facts are J. F. Blankenship, Sharon, Tenn., and Beulah L. Rogers, Kosmosdale, Ky., and they always have a bottle of it in the house, for it is a reliable laxative for all the family from infancy to old age.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

"There is, perhaps, no other important factor connected with beef production that is as often disregarded as that of the selection of bulls to head the herds of grade cows which are produced the feeding cattle of the country. It is still true that the 'bull is half the herd,' and he may be more than the herd if he is a choice individual backed up by good ancestry. A brief discussion of the importance of using great discretion in the selection of a sire should tend to a more active demand for the better grades of registered bulls. In the first place, the writer wishes to go on record as saying that the breeder of feeding cattle, whether he fattens them himself or sells them to cattle feeders, cannot afford to use a common bull of indiscriminate breeding. There can be no doubt about that. Feeding cattle that are well bred and possess quality enough to weigh one thousand pounds or better at two years old are worth all the way from \$40 to \$50 per head, depending upon their individual quality and condition. Such feeding cattle can be produced from grade beef cows mated with choice beef bulls. Common and inferior cattle that are produced from common cows and grade or scrub bulls frequently attain an age of three or more years before they reach one thousand pounds in weight. Such feeders at such an age and weight are worth from \$27 to \$30. The lesson should be plain that it does not pay to use an inferior bull that sires the steer that pays the owner but nine dollars per year for his keep as against the one that pays twenty-two dollars to twenty-five dollars per year. It may be claimed that the fault is not altogether with the bull. We grant that. But suppose the cows are the same in either case, the well bred bull will produce feeding cattle which will grade at least two grades higher than the feeding cattle produced by the mediocre bull.

"There is usually about thirty-five cents per hundred weight difference in price between one grade of feeding cattle and the next higher grade. If the well bred bull raises the grade of his offspring two grades he adds to the value of each animal he sires seventy cents per hundred weight or to the one thousand pound steer seven dollars. Properly cared for, a bull should sire from forty to fifty calves per year. For sake of argument, suppose we say he sires forty. If he should increase the value of each of his offspring but five dollars, a very conservative estimate, he earns at the least \$200 with his first crop of calves. It is

no exaggeration to say that as compared with the use of an inferior bull the registered beef bull pays for himself the first year."—Herbert W. Mumford, Chief Division of Animal Husbandry, University of Illinois.

Coroner of Georgia says Sloan's Liniment for Hog Cholera.

"I heard Gov. Brown (who is quite a farmer) say that he had never lost a hog from cholera and that his remedy always was a tablespoonful of Sloan's Liniment in a gallon of slop, decreasing the dose as the animal improved. ## Public Sale!

...On...

**November 23, 1912**  
**at 2 o'clock P. M.,**  
**in Hustonville, Ky.**

We will offer for sale at public auction, our Flour Mill and Electric plant, on the following terms: One-third cash and balance in one and two years. Date of possession given on day of sale.

This mill is equipped with the best machinery on the market, and is putting out flour second to none; and is a paying investment. It is not a dead one when it comes to making money.

The Light plant is a new installation, consisting of a Wiley Generator, complete switchboard, and a storage battery; and one of the latest wrinkles in electricity. IT IS MAKING MONEY NOW, and has only been in operation about 90 days.

The purchaser of this property will get a bargain, regardless of the price, as it is not often that property of the money-making type is placed on the market and sold to the highest bidder.

The reason for selling, is to make a complete settlement of the D. M. Lipps' estate, there being several heirs and most of them are located out of the state, and a complete settlement cannot be made until this property is sold.

The highest bidder will get this valuable property, as it will be sold absolutely without bid or reserve.

This mill is surrounded by one of the best farming sections in Kentucky, and produces wheat and corn sufficient to operate this mill twelve months in the year.

Hustonville is a desirable place in which to live: Good citizens, good schools, and everything to make it a desirable location for the mill. Don't forget the date.
